SIPA Services

S Scaffolding

Irex's scaffolding companies are made up of professionals dedicated to providing "safe access" for a wide array of industrial and commercial scaffolding applications. From comprehensive planning to efficient execution, you can count on them to provide a full range of quality, safe and comprehensive solutions to fit your access needs.

Scaffolding Types:

- System Scaffolds
- Suspended Scaffolds
- Frame Scaffolds
- Rolling Scaffold Towers
- Material & Personnel Hoists
- Fall Protection Systems
- Sidewalk Bridges
- Wrap Enclosures
- Netting
- Debris Chutes

I Insulation

Irex's unmatched history and experience in the mechanical insulation industry can reduce your pipe, duct and vessel installation and maintenance costs, provide substantial energy savings, protect against corrosion and condensation problems, reduce excessive noise levels, protect your workers from burns and temperature extremes, provide improved process control and productivity, and identify more energy-saving & emission-reduction opportunities through its I-STAR™ Energy Appraisal group.

Mechanical Insulation Services:

- Industrial Insulation
- Commercial Insulation
- Planned Outages & Turnarounds
- Sheet Metal Lagging
- Specialized Fabrication
- Cryogenic Insulation
- Acoustic Insulation/Panels
- Removable Insulation Blankets
- Certified Energy Assessments
- Consulting Services

P Painting

If you have industrial painting, coating or fireproofing needs, our painting companies have experienced professionals and capable workforces available to meet or exceed your exacting standards. Off-site facilities and established quality control processes complement on-site project capabilities to provide a full range of service offerings and customer protections.

Industrial & Commercial Coatings Services:

- Industrial Coatings & Linings
- Abrasive Blasting
- Painting
- Intumescent & Cementitious Fireproofing

A Abatement

Asbestos, lead and other environmental remediation projects involve exacting training, testing and performance and documentation standards that, not done properly by the abatement contractor, can create huge safety and liability risks for their customers, other contractors and owners. Irex companies have successfully completed thousands of projects over 30+ years for demanding customers that insist on integrity, financial strength, quality performance and permanent record retention.

Abatement & Remediation Services:

- Asbestos Abatement
- Lead Abatement
- Chemical Remediation
- Mold Remediation

IREX CONTRACTING GROUP: Full-service specialty contractors that are up to your most demanding challenges.
